Ophthalmology Grand Rounds

May 15, 2024 at 4:30 PM – 6:00 PM UCLA Jules Stein Eye Institute

Ophthalmology Grand Rounds - 5/15/2024

Overview

The UCLA Dept. of Ophthalmology Grand Rounds series is composed of weekly sessions which include a resident quiz, 3 case presentations, and a subspecialty lecture. The course is designed to improve the competency and performance of the ophthalmology faculty, fellows, residents, and community ophthalmologists and optometrists.

Objective(s): 1 Describe the differences in diagnosis and treatment for MS vs non-MS optic neuritis and apply recommended strategies to improve recognition and management of non-MS optic neuritis. 2 List the indications and contraindications for the use of teprotumumab for thyroid eye disease. 3 Describe the distinguishing ophthalmic clinical features of the congenital cranial dysinnervation disorders. 4 Identify proposed approaches to reduce disparities in glaucoma surgery outcomes and modify factors to improve surgical outcomes. 5 Appropriately diagnose atypical ocular motility abnormalities.

Location: UCLA Jules Stein Eye Institute

Specialties: Ophthalmology

Faculty Disclosures:

Alapakkam Sampath, MD (Nothing to disclose - 04/22/2024) Joel Zylberberg, PhD (Nothing to disclose - 04/23/2024) Download Handout

Learning Objectives

- 1 Describe the differences in diagnosis and treatment for MS vs non-MS optic neuritis and apply recommended strategies to improve recognition and management of non-MS optic neuritis.
- 2 List the indications and contraindications for the use of teprotumumab for thyroid eye disease.
- 3 Describe the distinguishing ophthalmic clinical features of the congenital cranial dysinnervation disorders.
- 4 Identify proposed approaches to reduce disparities in glaucoma surgery outcomes and modify factors to improve surgical outcomes.
- 5 Appropriately diagnose atypical ocular motility abnormalities.

Target Audience

Specialties - Ophthalmology

Professions – Physician, Fellow, Medical Student, Optometrist, Resident
