Live In-Person/ Live Virtual

Burnout Prevention

Overview

Join our CME series empowering healthcare professionals. Explore the collection, analysis, and synthesis of health/practice data, acknowledging its crucial role in healthcare improvement. Through collaboration with community specialists, this series addresses relevant population health concerns, providing multifaceted insights. Gain technical and procedural knowledge, receive valuable feedback, and witness the transformative impact of data-driven healthcare. Enhance your proficiency in this evolving field.

Learning Objectives

- 1 Discuss and integrate new/evolving medical technologies and best practices.
- 2 Analyze literature and studies and appropriately apply them into practice to optimize patient outcomes.
- 3 Utilize care strategies from subspecialists through care delivery to positively affect patient care.
