

GI Clinical Case Conference

October 24, 2024 at 12:00 PM – 1:00 PM

On-demand (virtual)

GI Clinical Case Conference - 10/17/2024

Overview

The GI Clinical Case Conference is designed to offer healthcare professionals evidence-based and integrative approaches to treat common GI disorders that can easily be implemented into practice and have significant impact on patient outcomes.

Learning Objectives

- 1 Apply the best evidence-based approaches when diagnosing and treating gastrointestinal disorders.
- 2 Apply the latest pharmacological, dietary, and brain-gut behavioral management strategies to treat functional GI disorders and overlapping disorders
- 3 Describe the latest diagnostic and therapeutic advances to treat esophageal disorders.
- 4 Discuss the current medical management and nutrition counseling guidelines for treating patients with inflammatory bowel disease.
- 5 Guidance on the current surveillance and treatment algorithms is important to help clinicians optimize management of patients to significantly reduce mortality in patients with liver disease.
- 6 Incorporate the most current technologies to endoscopically manage patients with gastrointestinal disorders.
- 7 Discuss current nutritional interventions for GI disorders.
- 8 Identify opportunities to effectively and systematically improve the level of care for patients with gastrointestinal disorders.
