Live Virtual

UCLA Department of Pediatrics Grand Rounds

Overview

The Pediatric Grand Rounds series promotes improvements in healthcare because a subcommittee identifies areas in which pediatric healthcare providers need more education, based on national sources as well as exam results of UCLA pediatric trainees. This subcommittee, led by the Executive Chair, consists of the medical directors of Mattel Children’s Hospital and Children’s Health Center, as well as the Pediatric Vice-Chair and Residency Program Director. Not exclusive to the specific areas of improvement, we make sure that the lecturers set goals and objectives for the target audience as well as encourage them to address some, if not all, of the ACGME competencies that lead to better health providing practices. Finally, this series provides a forum for the Department of Pediatrics to provide faculty development sessions which satisfy ACGME requirements. In addition, the Grand Rounds Committee seeks to identify areas specific to children’s health related to the COVID-19 pandemic.
