

Pulmonary-Thoracic Oncology

April 16, 2025 at 8:00 AM – 9:00 AM

Other

Pulmonary-Thoracic Oncology Multidisciplinary Conference

Overview

Lung cancer is the most common cause of cancer deaths and has the highest case fatality rate of any cancers among men and women, and accounts for more cancer deaths annually than breast, prostate, colon and pancreatic cancer combined. This activity represent a multidisciplinary approach to the screening, diagnosis and treatment of lung cancer and associated malignancies along with a direct review of selected cases in a tumor board approach with an overall goal of reducing the impact, morbidity and mortality associated with lung cancer.

Target Audience

Specialties – Internal Medicine

Professions – Physician, Fellow/Resident, Nurse, Physician Assistant, Resident
