Live In-Person/ Live Virtual
Stop the Bleed

Overview

Join our CME series empowering healthcare professionals. Explore the collection, analysis, and synthesis of health/practice data, acknowledging its crucial role in healthcare improvement. Through collaboration with community specialists, this series addresses relevant population health concerns, providing multifaceted insights. Gain technical and procedural knowledge, receive valuable feedback, and witness the transformative impact of data-driven healthcare. Enhance your proficiency in this evolving field.

Learning Objectives

- 1 Recognize life-threatening external bleeding and understand its impact on patient survival
- 2 Demonstrate the proper techniques to control bleeding
- 3 Identify when and how to use each bleeding control method.
- 4 Demonstrate confidence in taking immediate action until emergency responders arrive.
- 5 Promote situational awareness and safety while assisting injured persons
